About the East Texas Show Star Series

The East Texas Show Star Series Clinic and Prospect Shows are intended to provide an educational opportunity for 4-H & FFA participating in the livestock project area. The main purpose is to teach the basic principles of livestock management as they relate to facility maintenance, selection, nutrition, animal health, handling, showmanship and transportation.

"Quality Counts" programs are discussed to ensure the safe and legal use of drugs or medications to facilitate the ethical care, development and exhibition of livestock.

Educational programs of Texas AgriLife Extension are open to all people without regard to race, color, sex, disability, religion, age or national origin.

The Texas A&M University System, U.S. Department of Agriculture and the County Commissioner Court of Texas Cooperating
